experience

no landfill

Pacific Corporate Solutions is once again partnering with the University of Hawaii to protect our environment by recycling old outdated electronics waste (e-waste) and keeping it out of the landfill. This time we are going one step further and have partnered with the Hawaii Foodbank to help feed the homeless and the hungry!

*An optional donation of a can of food is being suggested to help feed the hungry. All food donations will benefit the Hawaii Foodbank.

**Got eWaste?
We're your solution!**
